

RAIL ACADEMY NEWPORT

RAIL AND INFRASTRUCTURE
TRAINING FACILITY

Rail Academy Newport is a purpose-built training hub for rail and infrastructure. The facility provides training rooms and specialist equipment for hire to training providers and Industry.

Visitors will have access to a meals room and break-out areas. Tea and coffee facilities are available, along with a vending machine and fridge to store individual food items or catering. PPE appropriate to the activity is required on site. Minimum requirement for site access is closed toe shoes.

Specialist Training Environments

- Gazetted track for rail corridor access and road-rail vehicle training
- Operational signalling infrastructure for designer, maintainer and tester training
- Equipment installation and type approval
- Full scale station and train mock-up.

Practical Training Zones

- Dual gauge track and signals
- Substation with HV switching components
- Signal equipment room with various signalling technologies
- Functional signal equipment (including relays, point machines, train stop, boom mechanism level crossing, pedestrian gate)
- Mechanical signal box levers
- Train station platform with two car train, drivers cabin and myki barrier gates
- Overhead wiring system (heavy and light rail and low level) - isolated from power supply.

Flexible Training Rooms

- 14 fully equipped training rooms suitable for theory delivery, blended learning and group collaboration.

Features include:

- Large display screens and projectors
- Whiteboards
- Access to amenities and breakout areas.

RAN is a multi-user training facility available to:

- Rail operators
- Contractors and delivery partners
- Employers
- Training organisations
- Any group delivering training, inductions or practical programs.

All bookings are coordinated by the RAN support team, who can help tailor spaces to your program needs.
