

CAREERS IN RAIL

VICTORIA'S BIG BUILD

This massive overhaul of our transport network is creating tens of thousands of jobs across a wide range of sectors, from construction and engineering, to human resources and administration. You can work in the private industry with our construction partners or be involved with the public sector.

The Victorian Government's Major Projects Skills Guarantee also provides opportunities for apprentices, trainees and engineering cadets to work on Victoria's biggest building and construction, infrastructure and civil engineering projects. Job seekers can now search for job opportunities on these major projects, including the Level Crossing Removal Project, Metro Tunnel, West Gate Tunnel and North East Link Project.

To find a job, search with the above projects or visit Big Build Jobs: bigbuild.vic.gov.au/jobs

STUDENT WORK EXPERIENCE

Work experience provides high school students with an opportunity to develop skills and knowledge in the public sector and explore career options at the same time. In a work experience placement, you'll get insights into how the Victorian Government works, as well as learn about the day-to-day operations of the business area.

For more information, please visit: careers.vic.gov.au/career-pathways/student-work-experience-1915

YES TRAINEESHIPS

This program offers young Victorians aged 15 to 24 opportunities to undertake a traineeship in the Victorian Government. Through a mixture of structured training, provided by a group training organisation and on the job training, trainees will successfully complete certificate level qualifications.

To find out more, visit: jobs.vic.gov.au/about-jobs-victoria/our-programs/youth-employment-scheme
